Project Presentation

April 2023

beopen-dep.e

u

Snapshot

- **BeOpen Framework** will enable the development of new digital and AI services by facilitating access to and use of EU Public Sector High Value Datasets.
- **8 pilots** will address mobility, urban security, environment, and natural disasters challenges in several EU regions.

Duration: 30 Months

Jan 2023 - Jun 2025

Budget: 7.447.000 €

Funding 50%

Digital Europe Programme

DIGITAL-2022-CLOUD-AI-02

Consortium: 17 Partners

+1 Associated Partner

BeOpen - The Context

Opportunity

- Become the **catalyst of Open Data** existing in public administrations.
- Improve **data sharing**, interoperability, **availability of data sets** in different sectors.
- Engage a **community of stakeholders** thanks to sister EU Projects and partners' networks.
- Build on expertise from previous projects with      leaders in data exploitation.

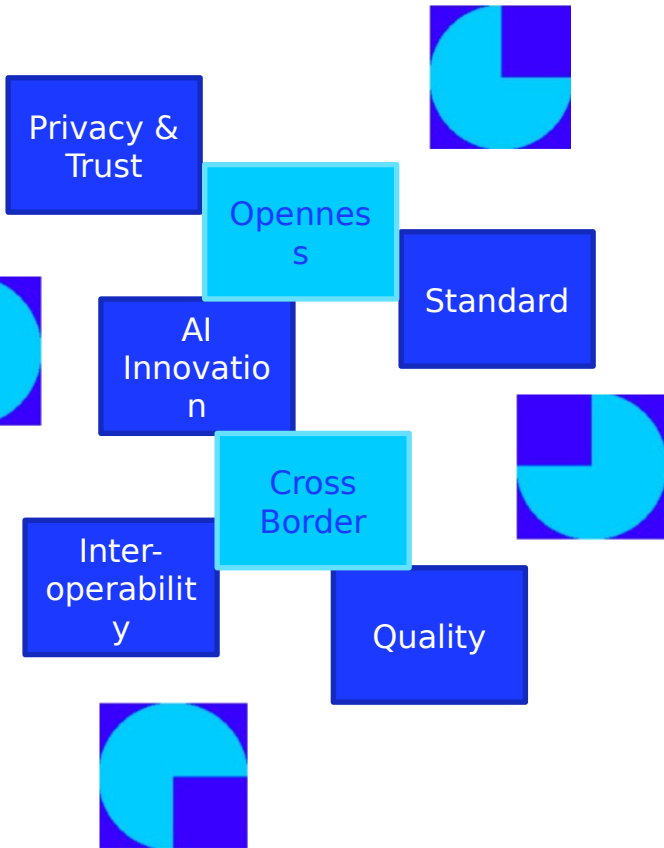

Solution

- Technical framework for data interoperability covering the complete pipeline from data collection, quality improvement, semantic enrichment, to data provisioning and publication.
- Catalogue of High Value Datasets (HVD), public Open Data available and accessible for the creation of new services and AI applications.
- Guidelines and recommendations – Legal interoperability of data.

Outputs

- Solution piloted in 6 countries, 8 cases in domains such as urban mobility, climate change, health ...
- Public High Value Datasets assessed and validated for re-use in new services or applications.

BeOpen will deliver

Technical Framework

Set of tools for data improvement and sharing along the public Open Data management pipeline

Catalogue of High Value Datasets

Public Datasets available in machine readable format discoverable by the EU and national Open Data Portals

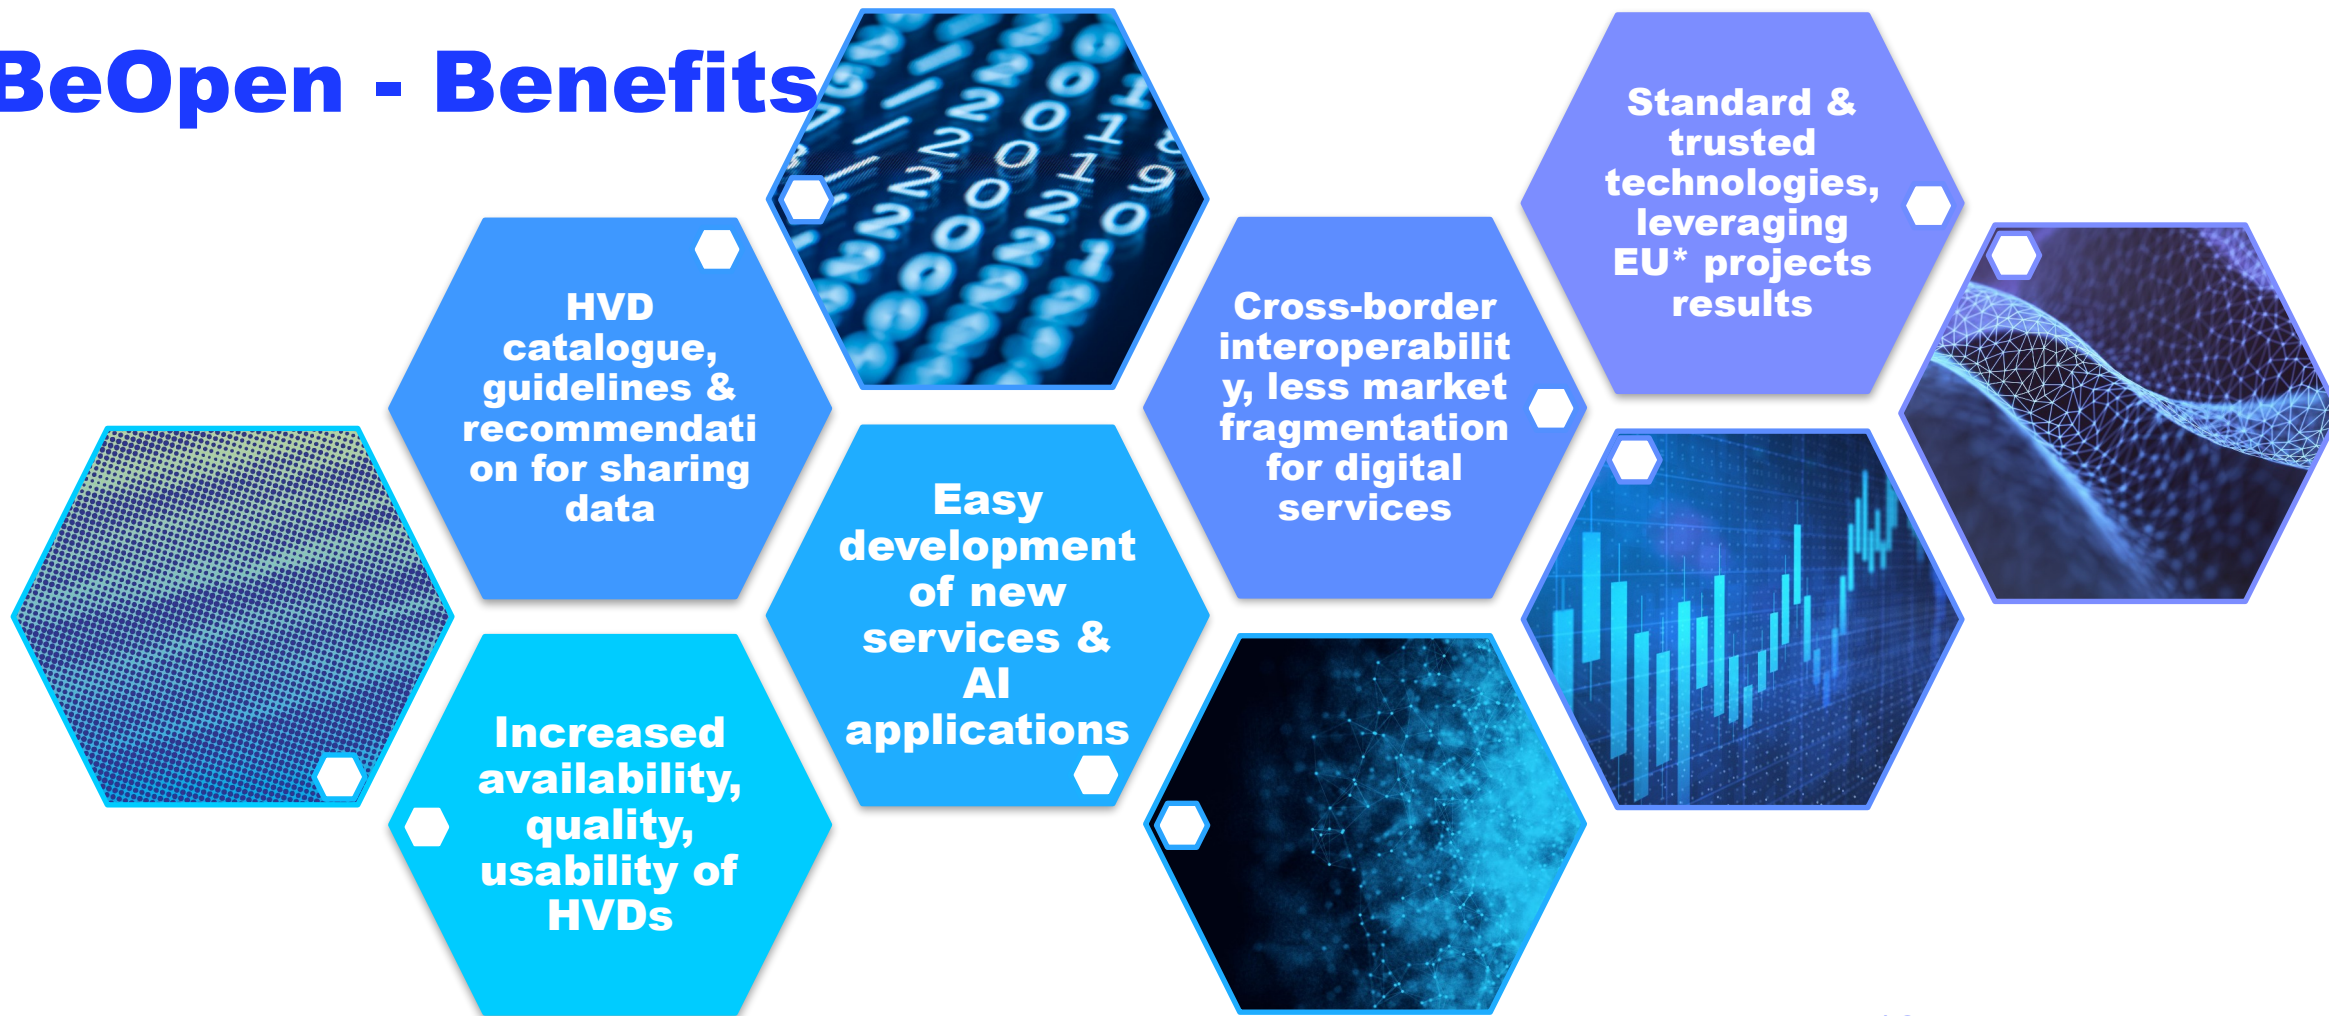

Community of Stakeholders

Expanded ecosystem of providers of High Value Datasets and developers of Smart Solutions and AI Applications

Smart Solutions for cities and communities

- Replicable services developed using the BeOpen framework and the

BeOpen - Benefits

*Connecting Europe Facility

8 Use Cases in different EU regions

Napoli (IT)
Integrating
Mobility
Data and
Urban
Environment
Information
for Decision
Making

Attica (GR)
Creating a
"shield" from
natural
disasters for
the region's
citizens and
environment

Herne (DE)
